Story Base

The fern flower is an enchanted flower that flourishes once a year during the solstice.

Jacek is a dreamer who searches for the fern flower in the forest.

In the solstice, he enters the forest through the main path, and there, finds the fern flower.

He seizes it and becomes all-powerful.

He starts to live a life of plenty.

But most importantly, he lives a life of loneliness, away from his family.

Years later he realises that his relatives died in poverty and grief searching for him.
